SURFACE PREPARATION

OPERATING WATERBLASTING EQUIPMENT CAN BE POTENTIALLY HAZARDOUS.
SEE PAGE 121 FOR IMPORTANT SAFETY INFORMATION

NEW FOR 2017

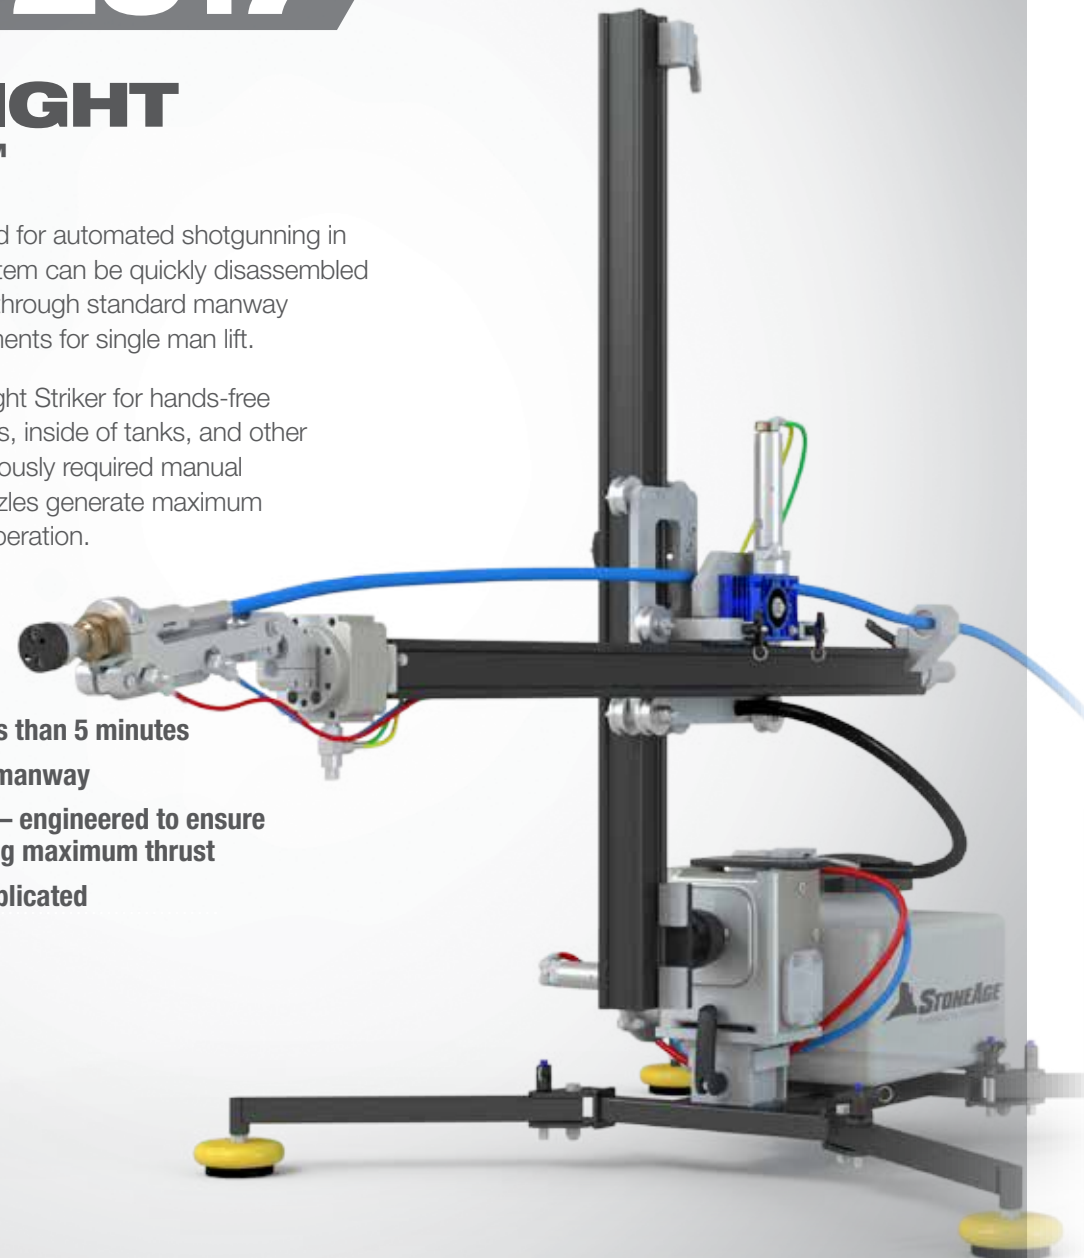

LIGHTWEIGHT STRIKER™

The Lightweight Striker is designed for automated shotgunning in hard to access locations. The system can be quickly disassembled into modular components that fit through standard manway openings and meet plant requirements for single man lift.

Contractors can use the Lightweight Striker for hands-free surface prep on elevated platforms, inside of tanks, and other limited access locations that previously required manual cleaning. Custom engineered nozzles generate maximum cleaning thrust and ensure safe operation.

FEATURES:

- Modular system designed for portability
- Can be fully assembled in less than 5 minutes
- Fits through 21 in. (534 mm) manway
- Custom 10K and 20K nozzles – engineered to ensure safe operation while delivering maximum thrust
- Affordable alternative to complicated robotic systems
- CE Certified

WATER TANK
Allows additional ballast without compromising system portability

3-D CLEANING CAPABILITY
47 in. H x 68 in. W x 40 in. D
(1194 mm x 1727 mm x 1016 mm)

MAXIMUM PORTABILITY
Entire unit weighs only 140 lbs (64 kg) and breaks down into six components that are less than 40 lbs (18 kg) each

CUSTOM 10K AND 20K NOZZLES
Engineered to ensure safe operation while delivering maximum thrust

Tool Model	Pressure Range	Jet Reaction Force	Cleaning Window Dimensions	Weight
SKRL-100	Up to 20k psi 1380 bar	Up to 50 lb 23 kg	47 in. H x 68 in. W x 40 in. D 1190 mm x 1730 mm x 1020 mm	140 lbs 64 kg
