AUTOMATED PIPE CLEANING

**NEW
COMING IN 2016**

NAVIGATOR

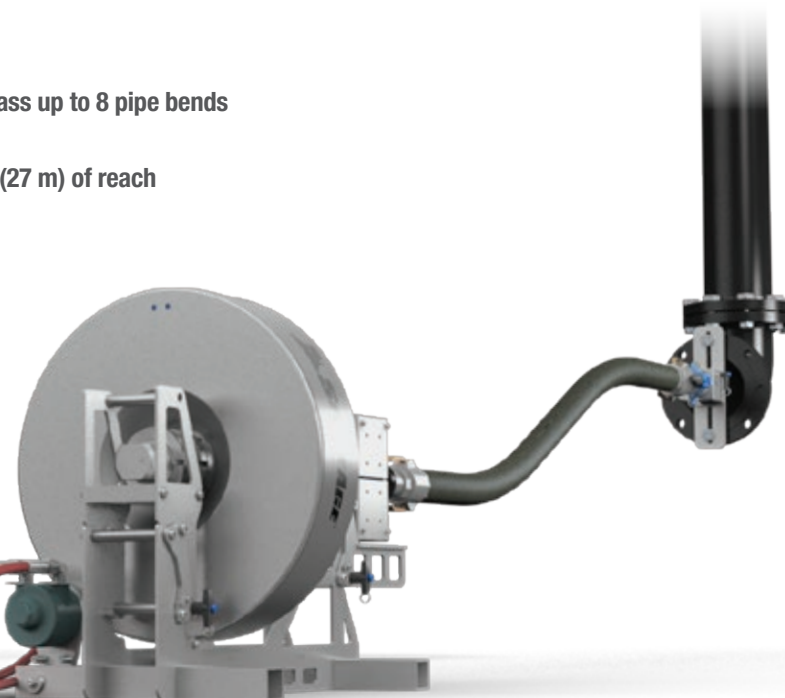

Automated Rotary Pipe Cleaning

The StoneAge Navigator is a portable Rotary Hose Device (RHD) designed to clean small pipes with bends.

The hose rotation enables access through multiple elbows and makes the Navigator ideal for cleaning process piping, drain lines, and other small ID pipes with bends.

FEATURES:

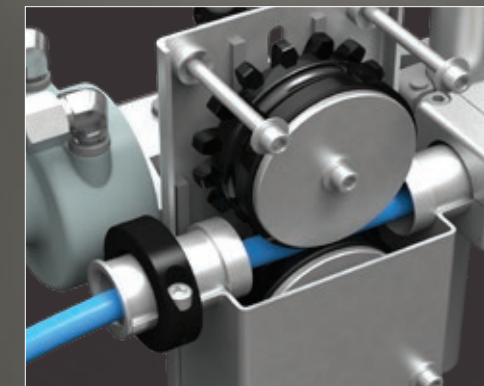

- Continuous rotation of the hose allows the nozzle to pass up to 8 pipe bends in small pipe
- Can hold 100 ft (30 m) of hose for approximately 90 ft (27 m) of reach
- Accommodates hose sizes 4/4, 5/4 and 6/4
- Adjustable feed speed to customize dwell time
- Snout simplifies attaching the system to the pipe and increases safety
- Lightweight, modular design allows a single operator to move, set-up and run
- Compatible with StoneAge Badger™ pipe cleaning tools, and Banshee™ Beetle tube cleaning tools

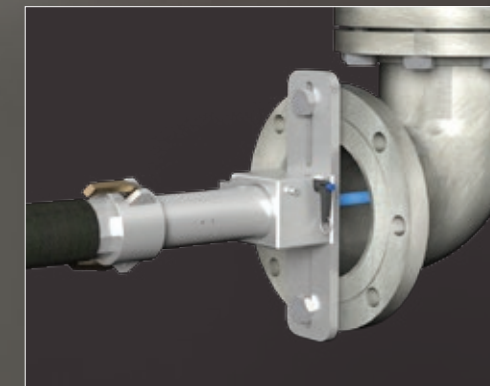

Tool Model	Max Pressure	Max. Feed Rate	Min. Feed Rate	Hose Size	Usable Hose Length	Complete Weight
NAVIGATOR	20k psi 1400 bar	2.0 ft./sec 609 mm/sec	0.2 ft./sec 61 mm/sec	4/4, 5/4 and 6/4	90ft 90 m	100 lbs 45 kg

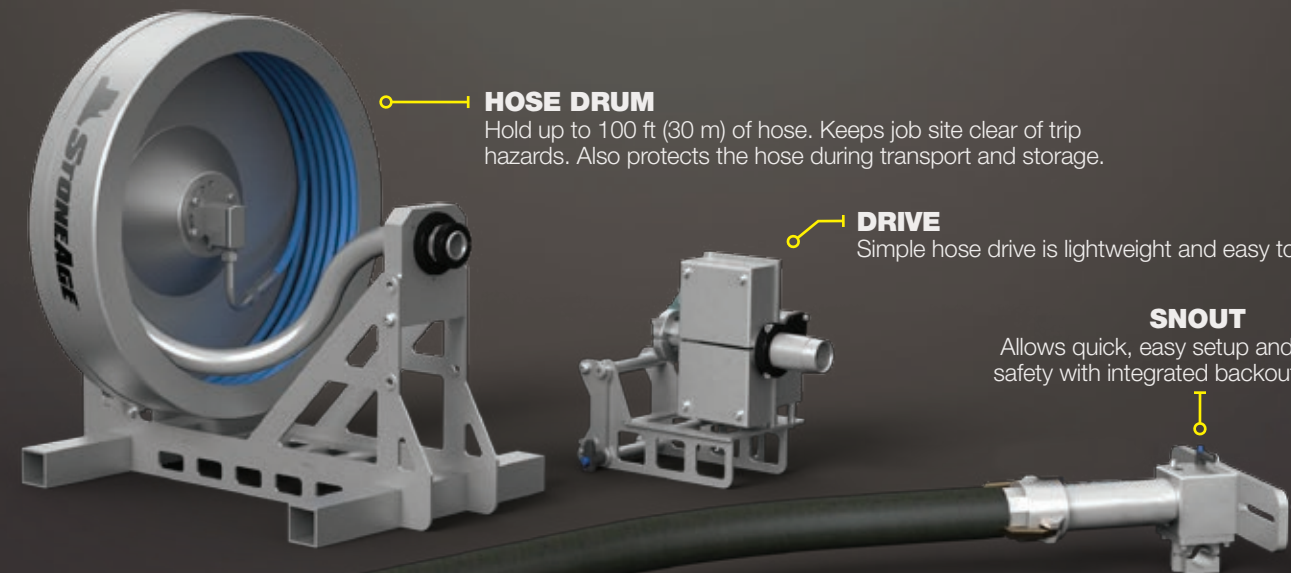

ERGONOMIC CONTROL BOX
Offers intuitive operation.

ACCOMMODATES SEVERAL HOSE SIZES
Designed to work with 4/4, 5/4, and 6/4 hoses.

FLANGE MOUNT
Versatile mount with cam-lock attachment for quick setup.

HOSE DRUM
Hold up to 100 ft (30 m) of hose. Keeps job site clear of trip hazards. Also protects the hose during transport and storage.

DRIVE
Simple hose drive is lightweight and easy to maintain.

SNOUT
Allows quick, easy setup and increases safety with integrated backout preventer.
