## A MESSAGE FROM OUR CEO, KERRY SIGGINS

Here at StoneAge, our culture of product innovation and commitment to designing new tools and equipment has improved the way the waterblasting industry works for over 35 years.

Over the past several years, we have worked tirelessly to bring StoneAge's waterblasting equipment and tools to the forefront of the 'hands-free' hydroblasting movement. By partnering with our dealers and industrial cleaning contractors around the world, our engineering team has been able to gain unique insight that guides our product design, increasing safety and advancing productivity for a wide variety of waterblasting applications. Paired with our unmatched customer service, StoneAge is proud to be leading the way to a safer, more efficient industry. We are grateful to you, our customers and dealers, for helping us make that happen. Thank you!

ON JANUARY 1, 2016, STONEAGE WILL ONCE AGAIN SELL ALL OF OUR WATERBLAST TOOLS, AUTOMATED EQUIPMENT, AND CUSTOM SOLUTIONS DIRECTLY TO OUR CUSTOMERS IN NORTH AMERICA.

We are expanding our technical sales, field support, and customer service team and offering 24/7 assistance. We will be opening regional offices, starting at our Pasadena, TX location, where you will be able to purchase, repair, and rent our tools and equipment.

This change does not affect our international waterblast market, nor our domestic and international sewer markets. Our international and sewer jetting customers can expect to receive the same great service from our dealer network.

No matter where you are in the world, our goal is to combine the best service with the best waterblast tools and equipment in the industry. When you are in a bind, you can rely on us to help you solve your problem. That's what StoneAge has been known for and that's what we aim to make even better.

Give us a call for expert support on your next waterblasting job. We look forward to hearing from you. And again, thank you for your loyalty and support.

Kerry Siggins  
CEO, StoneAge Inc.
